PROFILE

As a computer science student, I am highly motivated to stay current with industry developments and continually enhance my technical expertise. I possess strong adaptability skills and recognize the constantly evolving nature of computer science, making me flexible in keeping up with changes. My goal-driven mindset and adaptability give me confidence in excelling in the field and making a meaningful contribution to society.

WORK EXPERIENCE

Head Tutor | Wits University | Feb 2023 - Present

- Instructs first-year computer science students in programming languages such as Python and C++, as well as algorithms.
- Maintains course quality control and fairness.
- Fosters a supportive learning environment that encourages student growth and inquiry.
- Conducts regular assessments of student progress and adjust teaching strategies accordingly.

GTS Tutor | Wits University | Feb 2023 - March 2023

- Equipped first-year students with basic computer and Microsoft 365 skills and LMS management.
- Delivered a comprehensive program customized to students' needs.
- Provided individualized support to help students overcome challenges and build confidence.
- Enhanced student satisfaction and set them up for success in their academic careers.

STRENGTHS

-Strong technical skills:

- Python
- C++
- Java
- Technologies such as ReactJS and Flutter

-Familiarity with software development tools and methodologies:

- Version control systems
- Agile/Scrum
- Testing

-Ability to work independently or as part of a team to solve complex problems and deliver high-quality software solutions.

-Excellent communication and interpersonal skills, including the ability to explain technical concepts to non-technical stakeholders.

-Adaptable and willing to learn and apply new technologies and frameworks to remain current in the field.
